

האגודה קולטת עליה

"The Association embraces immigration"

"Olim Chadashim", (new immigrants to Israel) as all immigrants everywhere else in the world, face difficulties at the first days in Israel. Some of those difficulties related to continuation of their professional career and expertise.

Communication disorder therapists and audiologists can be assisted by ISHLA (Israel Speech, Hearing and Language Association) volunteers.

ISHLA coordinates information in regarding to professional integration and all related processes and required forms one needs to understand in his new home country.

We offer new immigrants a contact person, a tutor, whom is a local therapist (most likely a former "oleh chadash"), in order to help in the bureaucracy, support him and improve his chances of success in professional integration as quickly and smoothly as possible

Needs help?

- ✓ It's easy
 - ✓ Fill the form and email it to us
 - ✓ We will engage you with a tutor
-
- ✓ Help you in your original language, or in Hebrew
