INTRODUCTION TO POSTUROLOGY

7th June 2018 9:30 a.m.

Tel Aviv University, Cymbalista Hall

what is posturology?

Postural syndromes are related to the disfunction of body systems. Posturology helps to recognize the anatomical and functional relationship between some postural attitudes and pathological conditions, through neurophysiological, biomechanical and psychosomatic models.

The meeting is intended for orthopedists, neurologists, family physicians, pediatricians, geriatrics, sports physicians, dentists, orthodontists, physiotherapists and speech therapists.

ENTRANCE IS FREE
