

"ISHLA embraces immigration"

"Olim Chadashim", (new immigrants to Israel) as all immigrants everywhere else in the world, face difficulties during their first days in Israel. Some of these difficulties are related to continuation of their professional career and expertise. Speech & Language Pathologists and Audiologists can be assisted by ISHLA (Israel Speech, Hearing and Language Association) volunteers.

ISHLA coordinates information regarding professional integration and all related processes and required forms one needs to understand in his/her new home country.

We offer new immigrants a contact person, a mentor, whom is a local therapist (most likely a former "oleh chadash"), in order to help with the bureaucracy, support him/her and improve his/her chances of success in professional integration as quickly and smoothly as possible.

Need help?

- ✓ It's easy
 1. Fill the form and email it to us
 2. We will engage you with a mentor

- ✓ Help you in your original language, or in Hebrew
- ✓ Help you understanding the labor market and finding potential places to work
- ✓ Assistance in preparation for the governmental licensing examinations, understanding the processes, certificates and forms to be submitted to the various authorities.
